AIP Publishing is significantly increasing investment in our flagship publications, *Applied Physics Letters*, *Journal of Applied Physics*, and *The Journal of Chemical Physics*, to ensure that we are addressing the changing research landscape and offering authors the premier choice for submission of their most significant work.

**NEW Article Acceptance Criteria**
Editorial teams are applying an expanded set of criteria when reviewing manuscripts, now requiring that they fulfill at least one of the following:

- **Contain** novel research that represents a significant advancement or improves scientific understanding in a particular field
- **Introduce** or be at the forefront of an emerging line of research
- **Develop** innovative theoretical or experimental methods for the physical sciences
- **Present** interdisciplinary scientific advancements that generate new avenues of research
- **Lead to or take** critical steps towards real world applications

**NEW Editorial Structure and Peer-Review Process**
AIP Publishing is implementing important changes to editorial structure to:

- **Increase** topical expertise
- **Ensure** consistent and fair evaluation of manuscripts
- **Broaden** geographic representation
- **Provide** more rapid service to our authors

**Watch for future announcements regarding new Deputy and Associate Editors**

**Applied Physics Reviews**

The dedicated home for cutting-edge reviews in applied physics

Previously a key component of *Journal of Applied Physics*, *Applied Physics Reviews* is FREE in 2015 to institutions that have access to one or more of the following: *Applied Physics Letters*, *Journal of Applied Physics*, and *The Journal of Chemical Physics*.

- By end of 2014, *Applied Physics Reviews* had published 29 articles, more than twice the number of reviews in comparison to 2013. This number is set to grow in future years.

- On average, reviews from *Applied Physics Reviews* are already downloaded 2.5 times more often than articles from *Applied Physics Letters* (*2014 content only).

In 2016 *Applied Physics Reviews* will become available by subscription only.

**Volume 3** (online only); **E-ISSN 1931-9401**

**AIP PUBLISHING TAKES A LEAP FORWARD TO IMPROVE CUSTOMER SERVICE**

Almost a year ago we announced the successful launch of *Advantage*, our new fulfillment system. *Advantage* provides added visibility to our customers and their holdings.

“The next step for us is to implement a Customer Support Solution that will enable our team to resolve issues more efficiently and provide stellar service,” commented Bernadette Garcia, Assistant Director, Customer Experience and Order Processing. “We want to provide our customers with multi-channel support to make it easier for them to contact us in whatever way is most convenient for them – and eventually move towards a knowledge base for self-service.”

Stay tuned for email announcements this summer and feel free to contact us if you have any questions or recommendations on how we can improve our service!
