

NOW AVAILABLE

# Journal of Applied Physics

**Over 118,500 articles** in the  
most cited journal in Applied Physics

---

- **World's most comprehensive collection of applied physics research**
- **Publishing new experimental and theoretical results of applied physics research**

The *Journal of Applied Physics* publishes manuscripts that:

- Develop underlying physical principles for innovative technologies
- Present scientific advances to modern applied physics problems across multiple disciplines
- Enable real world applications based on innovative applied physics
- Identify the physical reasons for materials properties

**ACCESS THE LATEST IN  
APPLIED RESEARCH TODAY!**
