AIP Publishing

AIP Publishing is the not-for-profit publishing arm of the American Institute of Physics (AIP). For more than 80 years, AIP has been one of the world's leading publishers in the physical sciences, and our mission remains to inspire and inform the scientific community with research and resources of outstanding value, relevance, and quality. With a portfolio of 32 publications, we offer journals and magazines that span the breadth of physics and beyond. AIP Publishing has some of the most highly used titles in the field, including *Applied Physics Letters*, *Journal of Applied Physics*, *The Journal of Chemical Physics*, and *Review of Scientific Instruments*. Our platform is accessed by more than 980K researchers a month from more than 4,000 institutions across the globe. We offer a broad range of advertising and sponsorship opportunities to target active scientists, researchers and engineers, and we'll work with you to provide a solution that meets both your needs and your budget.

Readership

Global Usage

Subject & Industry Focus

At the rate scientific developments and research are being released, it is important that our advertisers have the ability to reach researchers and scientists based on relevant subject areas and industries. When advertising with AIP Publishing, you reach a dynamic audience maximizing product exposure globally.

Applied Physics

Bioscience

Chemical Physics

Energy

Materials Science

Nanoscience

Photonics

Aerospace

Automotive

Biotechnology

Chemical

Engineering

Material Science

Manufacturing & Construction

Pharma

IT & Software

Power & Utilities

Build Awareness and Drive Sales

AIP Publishing provides an array of cost-effective online and print advertising options to reach highly-targeted scientists working in R&D, and applied or experimental physics. AIP Publishing can customize the perfect solution for your advertising, marketing, or recruitment programs.

Online Advertising

Banner Ads

Position your messaging in an engaging environment where researchers routinely turn for high-quality content. Tracking reports of impressions and click through rates (CTR) available. AIP Publishing now offers:

- Skyscraper: 120 x 600 pixels
- Leaderboard: 728 x 90 pixels
- Boombox: 300 x 250 pixels

TOC Alerts

Advertise to thousands of scientists who have opted to receive email Table of Content Alerts of newly published issues of their favorite journals. Put your message directly into readers' inboxes; with these alerts receiving high open rates and CTR. Top and bottom banner ad positions of **728 x 90 pixels** are available (non-animated).

Contextual Advertising

A cost effective way to deliver targeted messages that reach your target audience. Available across more than 20 publications on Scitation.org, you have the opportunity to reach scientists, researchers, and engineers with ROI measurability.

Grow Your Brand

Research Highlights Newsletters

Distributed on behalf of every journal in the program, these provide thousands of readers and active contributors with news tailored specifically to their interests. This opt-in program delivers high open rates and CTR. An exclusive ad placement (non-animated, **620 x 90 pixels**) is available to a single advertiser in each issue.

Journal Article Download Ads (JADs)

JADs are PDFs of articles that can be saved to a user's computer for future reference. This ad puts your message directly in front of the researcher while they're thinking about related products and systems. It is exclusive, targeted, and stays with the article for the life of the PDF.

- 1640 x 440 pixels
- GIF or JPEG less than 200KB
- No animated GIFs
- Due one week prior to ad run with click through URL

Print Advertising

AIP Publishing offers print advertising in several of our journals. Place your message within high-quality publications that researchers and scientists turn to every month for leading-edge information.

Custom Advertising & Sponsorship Options

Reaching your target audience just got a bit easier. Companies now have the opportunity to reach AIP Publishing's audience of 775K+ readers/month through custom advertising and sponsorship opportunities including White Papers, Webinars and Reprints. Our readership of researchers, scientists, students and engineers seek access to the latest innovative research and emerging developments that organizations like yours can offer.

White Papers

Working with AIP Publishing offers organizations the opportunity to:

- Advertise an existing company white paper to the AIP Publishing community
- Sponsor a curated white paper on a specific topic.

Webinars

Share your message with the global AIP Publishing scientific community through interactive live or pre-recorded webinars. Available in a variety of formats, including:

- Topical AIP Publishing Editorial Webinars
- Editorially Independent Webinars that are spearheaded by the sponsoring company.

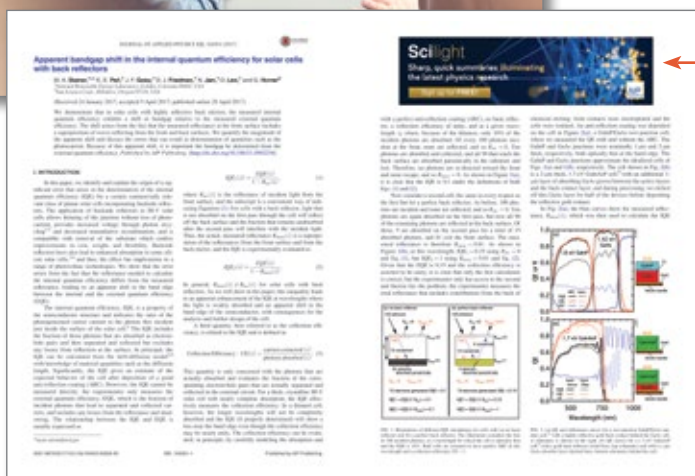

Editorial Reprints

Order reprints of any AIP Publishing article and have it delivered directly to your readers. If there's an article published by a researcher at your company, or which mentions your company, reprints are a great way to create awareness and strengthen the value of your brand.

Purchase bulk quantities of printed reprints or license PDFs for distribution to your current or prospective customers. Both print and electronic options can carry your product messaging.

Package Discounts Available:

- Frequency discounts
- Multiple Publication discounts

Maximize your ROI with Contextual Advertising — a cost effective way to deliver targeted messages that reach your ideal audience. Now available across more than 20 publications on Scitation.org, you have the opportunity to reach scientists, researchers, and engineers who are involved in active research and target your reach based on subject, predefined relevant key terms, or custom targeting.

Custom targeting offers the opportunity to select up to 25 key terms from the 13K+ available to refine your audience reach.

Benefit from:

- Customized targeting
- High-quality, cost-effective leads
- ROI Measurability

The Scitation Platform

Contextual advertising on scitation.org offers advertisers a way to reach their ideal audience across several publications based on keyword targeting. With an improved page design, optimized display and collaborative online tools, users find Scitation.org to be a reliable resource for the latest developments and scientific discoveries across the physical sciences.

- Audience Reach 759K+ researchers/month
- 3.5 million page views/month
- 1.6 million article downloads/month

Publications

AIP Advances is an open access, multidisciplinary journal covering all areas of the physical sciences — experimental, theoretical, and applied. The inclusive scope and publication standards of *AIP Advances* makes it an essential outlet for scientists across the physical sciences. All articles are published under the Creative Commons License (CC-BY) and are immediately freely available to read, download, and share.

Coverage: All areas of applied, theoretical, and experimental physical science research

12 Issues published/year
61,600 Unique users/month
118,600 Average page views/month
11,500 Newsletter registrants
5,300 TOC alert subscribers
Journal Impact Factor: 1.653*
aip.scitation.org/journal/adv

AIP Conference Proceedings contains over 100,000 articles published in more than 1,900 proceedings since its inception in 1970. Each year approximately 100 new volumes (some 10,000 papers) are added to this substantial body of scientific literature. Published conference proceedings are valuable as topical status reports providing quick access to information before it appears in the traditional journal literature. From the early career researcher to the Nobel Prize winning scientist, *AIP Conference Proceedings* is an essential platform to facilitate communication and advance within the scientific research community.

Coverage: All areas of physical sciences in applied, theoretical, and experimental research

Acoustics Today is a quarterly publication from the Acoustical Society of America and combines the importance and value of technical analysis with real-world applications and the community's need for books, standards and instrumentation. With a global audience, *Acoustics Today* penetrates the market for acoustics research, education, and engineering and reaches key buying influencers whose opinions and advice drive decision making for acoustical design, technology and services.

Coverage: Extends from basic research to practical applications and incorporates tutorials on topics such as signal processing, structural acoustics, and sound system design prepare readers for issues and challenges in hearing protection, noise mitigation, communication systems, architectural design, and underwater acoustics

4 issues published/year
acousticstoday.org

Published on behalf of:

American Journal of Physics is the archival journal of the American Association of Physics Teachers. The journal is devoted to the instructional and cultural aspects of physical science. Geared toward teaching at the college level, content covers novel approaches to laboratory and classroom instruction, insightful articles on topics in classical and modern physics, apparatus notes, historical and cultural topics, and book reviews.

Coverage: Physics topics taught at the undergraduate and graduate level; current research in physics and related areas; suggestions for instructional laboratory equipment; demonstrations and teaching methodologies; information on historical, philosophical, and cultural aspects of physics; annotated lists of resources; book reviews

APL Photonics is the dedicated home for open access multidisciplinary research from and for the photonics community. The journal publishes fundamental and applied results that significantly advance the knowledge in photonics across physics, chemistry, biology, and materials science. It welcomes high-quality original contributions to the science of light and the technology that generates, controls, and detects photons.

Coverage: Light sources; nonlinear optics; optoelectronics; nanophotonics; plasmonics; biophotonics and biomedical optics; ultrafast photonics; optical communications; quantum photonics; optical imaging; photovoltaics; guided wave optics; sensors; terahertz

of applied physics research

The Journal of the Acoustical Society of America is the leading source of theoretical and experimental research results in the broad interdisciplinary subject of sound. The journal serves physical scientists, life scientists, engineers, psychologists, physiologists, architects, musicians, and speech communication specialists. JASA Express Letters, a component of JASA, is devoted to providing rapid and open dissemination of important new research results and technical discussion in all fields of acoustics.

Coverage: Linear and nonlinear acoustics; aeroacoustics, underwater sound and acoustical oceanography; ultrasonics and physical acoustics; architectural and structural acoustics and vibration; speech, music and noise; psychology and physiology of hearing; engineering acoustics, sound transducers and measurements; bioacoustics, animal bioacoustics and bioresponse to vibration; acoustic signal processing; computational acoustics; acoustics education

Terms & Conditions

Publisher's Copy Protective Clause

All advertising is subject to approval. The publisher reserves the right to reject any advertising that is not in keeping with the publication's standards. Advertisers and their agencies assume liability for all content of advertisements – both printed and online – and assume responsibility for any claims that may arise against the publisher for their advertising. Publisher states that both advertisers and advertising agencies are equally responsible for payment of advertising appearing in this publication. Default by either party does not remove the burden of payment by the remaining party. AIP Publishing will not accept advertising for an upcoming issue where the advertiser and/or the advertiser's agency has not paid for advertising in a prior issue.

General Advertising Rate Policy

Frequency is earned by the total number of insertions in a 12-month period.

Online Banner Ad Rotation Policy

Banner ads on AIP Publishing journal pages are placed in rotation with ads from our current advertisers and are delivered to ad spaces in random order. However, each advertiser is guaranteed a minimum number of impressions per month as outlined in individual title rate cards.

Cancellation Policy

Cancellations on print advertising will not be accepted after the space reservation deadline, (e.g. August 1 for the September issue. All cancellations must be in writing).

Commission and Discounts

Recognized agencies receive 15% of gross billing on space, color and premium position only if the account is paid within 30 days of the invoice date.
