

COMING SOON

NEW BOOK SERIES

Launching in 2020, the books program will provide researchers, scientists, and professionals access to a series of books that will help them maintain proficiency in their areas of expertise, attain knowledge about new subjects and topics, or learn new techniques for data collection and analytics.

Available for purchase at the end of 2019.

PRINCIPLES

A comprehensive treatment of a topic, providing introductory material for new entrants, and covering recent developments for experts. A resource for anyone who would like to learn anything about a particular subject area.

METHODS

Tutorial content documenting experimental methods, protocols or best practice, providing instruction at various levels of expertise.

PERSPECTIVES

An in-depth treatment of a specialist topic.
