

# Fluids & Plasma Research Package

Online access to 3 highly-regarded journals devoted to publishing experimental and theoretical research in fluids and plasma, dating back to 1929.

Purchasing Options Available:  
**Frontfile** (1999-present)  
**Frontfile + Backfile** (1929-present)

## Physics of Fluids

Devoted to publishing original theoretical, computational and experimental contributions to the understanding of the dynamics of gases, liquids and complex or multiphase fluids.

> [aip.scitation.org/journal/phf](http://aip.scitation.org/journal/phf)

## Physics of Plasmas

Publishes comprehensive and in-depth review papers covering important areas of study and Special Topics highlighting new and cutting-edge developments in plasma physics.

> [aip.scitation.org/journal/php](http://aip.scitation.org/journal/php)

## Journal of Rheology

Presents experimental results, phenomenological models and microscopic theories dealing in with the rheological behavior of the complex materials, including macromolecular, colloidal and particulate solids and fluids.
