MAKING AN IMPACT & ADVANCE DISCOVERY

JOIN OUR MISSION!

As a not-for-profit society publisher, our mission is to present, promote, and to make the building blocks of future discoveries permanently available—inspiring physical scientists around the world.

Publish your book with us and share your knowledge and expertise with a global community of 1.2M+ monthly users across the physical science community to help promote scientific advancement.

YOUR PATH TO PUBLICATION

1. Discuss your idea with a Commissioning Editor
2. Develop a proposal
3. Review
4. Reject (go back 2 steps), Accept (proceed forward)
5. ...
6. Time to write
7. Sign an agreement to publish your book
8. ...and revise
9. ...and revise some more
10. Until your manuscript is ready
11. Submit manuscript to publisher
12. Publisher copy edits, typesets & designs book
13. Review proofs & make corrections
14. Promote your book
15. Publish online, eReader, print
16. Time for your next book?!?

CONTACT OUR COMMISSIONING EDITORS TODAY TO START PREPARING YOUR PROPOSAL.

We look forward to working with you on your proposal, manuscript, and published book. Contact us today! books@aip.org
WHY BECOME AN AUTHOR

Our digital books provide a comprehensive and interactive resource for researchers and professionals and are fully integrated with our journal portfolio on scitation.org. Our platform offers a way for you to share your expertise, enable learning, and encourage best practice in research and scientific analysis.

SUPPORTING OUR AUTHORS

We will ensure your book meets its fullest potential and fits the needs of the scientific community. Throughout the publishing process we will provide guidance and help you:

- **Prepare your proposal** with our experienced Commissioning Editors who work with you from the start to assess the potential market for your work and ensure your book addresses the needs of scientists and professionals.

- **Develop your manuscript** with dedicated Development Editors who guide you through the writing and peer review process.

- **Review & Design your book** with our production team who creates the cover, writes the jacket copy, and corrects spelling and grammar following AIP Publishing’s style guide to deliver page proofs for your review.

- **Promote your book.** Our skilled marketing team is committed to working with you to maximize readership and awareness of your book through email, social media, ads, conferences, and more.

CORE SUBJECT AREAS

- Materials Science
- Biophysics & Engineering
- Optics & Photonics
- Applied Physics & Engineering
- Condensed Matter
- Mathematical & Theoretical Physics
- Chemical Physics
- Nanotechnology

PUBLISHED ACROSS A RANGE OF FORMATS:
Online, ePub for Electronic Devices & Print
TYPES OF BOOKS

Your digital book will inform, instruct, inspire other scientists and students when published as one of four book types:

- **PRINCIPLES**
  Presents a comprehensive overview of a topic, providing introductory material for new entrants and covering recent developments for experts

- **METHODS**
  Provides tutorial content documenting experimental methods, protocols or best practices, and provides instructions at various levels of expertise

- **PROFESSIONAL**
  Recommends guidance on training and development for professionals and physics educators

- **PERSPECTIVES**
  Offers in-depth analysis of a specialist topic, written by experts in that field

OUR COMMISSIONING TEAM

**SAMINA CALIN**  
scalin@aip.org • +1 516.576.2641  
Medical Physics, Neuroscience, Electromagnetism, Electronics, Optics, Optical Physics

**LAUREN SCHULTZ**  
lenschultz@aip.org • +1 516.576.2382  
Nanotechnology, Sound and Acoustics, Quantum Physics, Quantum Chemistry, Rheology and Fluid Dynamics, Photonics

**JEANINE BURKE**  
jburke@aip.org  
Condensed Matter, Chemical Physics, Mathematical Physics

**CLAIRE GORDON**  
cgordon@aip.org  
Biophysics, Energy, Materials

**PUBLISHER**  
SIMONE TAYLOR, Ph.D.
