Our Open Science Mission

Advancing open, fair research in the physical sciences—helping your work to be read, reused, and built upon worldwide.

At AIP Publishing, open science is central to our mission to advance, promote, and serve the physical sciences for the benefit of humanity. We're committed to breaking down barriers to access, sharing, and collaboration—supporting you at every stage of the publishing journey.

Our pathways to open science:

Maximize the Reach and Impact of Your Work

- **Publish open access (OA) at no cost to you through AIP Fusion and Read & Publish agreements** at participating institutions worldwide.
- **Immediate green OA with *no fees or embargo period*—**enables you to self-archive your work upon acceptance and increase its visibility.
- **Extensive Article Processing Charge (APC) discounts and waivers** support researchers in regions with limited funding.
- **CC BY 4.0 licensing by default**—helps you comply with funder requirements.

Help You Publish OA Across Our Entire Portfolio

- **Discover our growing selection of gold and diamond OA journals** in emerging and interdisciplinary areas.
- **Every journal has an OA option**, so you can always find the right home for your research and make it accessible to everyone, everywhere.

Deliver Responsible Research Practices

- **Liberal open data policies, transparent publishing practices**, and participation in global initiatives support accessibility and trust in the scholarly record.

Does Your Institution Have an Open Access Agreement with AIP Publishing?

AIP Publishing (AIPP) partners with universities, research institutions, and consortia worldwide to make open access (OA) publishing **simple and cost-free** for affiliated authors. Our goal is to help researchers focus on their work—not article processing charges (APCs) or compliance.

Two Ways to Publish Open Access—APC-Free:

Read & Publish:

- **APC-free OA publishing** in participating* hybrid journals.
- **Reading access** to subscribed* content.

*Check with your librarian to find out which journals are part of your institution's agreement.

AIP Fusion:

- **Unlimited APC-free OA publishing** in 40+ AIPP and partner journals—including gold OA titles—*no article caps, no barriers, no extra steps.*
- **Unlimited reading access** to our portfolio of AIPP and partner journals, from 1999 to present.

Both agreements include CC BY licensing by default, supporting full funder compliance. Author eligibility is automatically recognized at the point of submission. Eligibility applies to corresponding authors affiliated with participating institutions.

Not sure if your institution has an OA agreement? Ask us about your open access options.

Check if your institution covers APC-free OA publishing

Verify whether your university, research institute, or consortium has a Read & Publish or AIP Fusion agreement. You may be eligible for **APC-free OA publishing** and expanded reading access.

Explore Our Gold & Diamond OA Journals:

Gold OA

AIP Advances, APL Bioengineering, APL Computational Physics, APL Electronic Devices, APL Energy, APL Engineering Physics, APL Machine Learning, APL Materials, APL Photonics, APL Quantum, JASA Express Letters, Structural Dynamics

Diamond OA

International Journal of Fluid Engineering, Matter and Radiation at Extremes, MechanoEngineering, Nanotechnology and Precision Engineering, Proceedings of Meetings on Acoustics

Why Publish Open Access With Us

On average, articles published OA with AIPP get: 4X VIEWS | 2X CITATIONS | 2X SHARES
